& Physical Sciences

May 17, 2010

Dr. Tao Xing
Assistant Professor
Department of Mechanical Engineering
Tuskegee University AL 36088

Dear Dr. Xing:

Please accept my sincere gratitude for your presentation on Mobile Technology Status that supported the College of Engineering, Architecture and Physical Sciences Workshop during May 13-14, 2010. Judging from our discussions and action items related to this topic, it was very helpful and centered on an area that will enhance our programs and our students' development and competence. We appreciate your participation in this part of our educational work. Thank you very much.

Sincerely,

LEGAND L. BURGE, JR.
Dean
